

- CANCER, in my opinion, is a short circuit in a particular zone which makes that zone defenceless, disturbs the normal electric current in the body, and allows the zone to degenerate.

- There can be many causes, but some of the most important are the emotional shock which one has received in the last year or longer, as the person you have trusted most, has betrayed you, or the person feels guilty of certain happenings to others, or want to remedy things which are impossible but they keep on trying and continue feeling in their own mind guilty and responsible continuing to brood and suffer in silence in their sub conscious mind, without realising the internal problem. (See art. 24). Once we analyse and induce them to accept the will of God things can and do change for the better.

- Natural cures, as follows, help to recuperate iron as well as magnetic frequencies which increase immunity and bring health in the zone, but the most important is confession, or some one competent getting out of the mind of the sufferer, what is bothering them in their sub conscious mind. Once they realise of the latent cause, they are on the road to permanent recovery.

- According to Health Sciences Institute, 14 West Mount Vernon Place, Baltimore, MD 21202 USA Phone 410 783 8440 Fax 783 8438 lactoferrin, contained in the mothers first milk, the first shield against infections and diseases. They also mention that Leukaemia was reversed in two weeks by giving them a powerful Brazilian herb, they also add that herbal extracts made from bark of the Tabebuia tree found in Argentina, India (in India also the Tulsi, Basil and albahaca) and Brazil shrinks the tumours and reverses leukaemia by restoring dangerously low white blood cell counts.

- Linseed oil (taken internally) possesses anticancerous effects. Tumours can not exit in the magnetic fields. Apply North Pole to the affected parts. Use MSM Art. 24.

- Lemon juice, like linseed oil, has anticancerous properties both externally as well as internally. Lemon juice would relieve intolerable pain of cancer, suck lemon for cancer of tongue and palate.

- For ulcerous cancer of the breast with grievous pain, a piece of lint soaked in lemon juice produces immediate relief.

- Excessive consumption of common salt is corroborative to cancer and should be avoided.

- Constipation should be avoided at all costs, avoiding salts but using natural methods such as drinking small quantities of olive oil or enema. The first enema should be with hot water, and the second, after 20 minutes of rest, hot water with lemon juice (mixture of four lemons juice & 2 liters of water) and retain it in the system as much as possible (retention enema) so that the lemon juice cleans the intestine walls. A most important thing in cancer cure when intestines regain their suction or pulling capacity.

- Natural foods rich in potassium have beneficial effects such as apples and grapes, honey, yoghurt, fresh strawberries, raspberries, apricots (including the inside almond), peaches and cherries.

- Absence of mineral salts from the body can be the cause of cancer. Paprika is also a rich source of potassium.

- Malignant disease may result from worry or shock. Grey matter in the brain is controlled by potassium phosphate; drain in potassium takes away the defence from the local places.

- Citrate of potassium could be taken to supplement potassium, although the best form of potassium should be in a natural form. See Art 11.

Morbid growth disappears as a result of potassium treatment.

- Wheatgerm "Chapati" made from freshly stone ground wheat has a lot of wheatgerm. Any grains that are sprouted also have a lot of germ, and should be liberally taken, but food has to be eaten slowly and chewed very well.

- Uncooked food which are edible like carrots, apples, cabbage, lettuce, celery, cucumber, including both vegetables and fruits, should be liberally taken with their skin on, properly washed, and avoid mixture that is,

one type of item per meal. Also seaweed. Vegetables and fruits to be cut at the time of eating.

- Sugar cane is very good, so is natural butter.
- Crude black molasses is also very good for cancer.
- No flesh or meat extracts should be taken.

- Plenty of fresh fruits and vegetables, cereals in the form of freshly stone ground or sprouted.

- Abdominal cancer has been cured by infusion of violet leaves applied in the form of hot compresses. India using Tulsi leaves can give equal or even better results.

- Experiments made on mice over water suffer from decrease in weight and haemoglobin content of the blood. The elder ones

were effected more quickly; the younger ones took longer.

- Leaches over water zone showed movements of their bodies similar to frequencies of radiation. Buildings over water have shown more sufferers of Cancer. Baton Rouge in United States, which has water around it, has 18 times more cancer patients than in the dry zones.
- Radium chemotherapy and X rays should be avoided at all costs. After such treatment, if taken, a lot of sunshine and fresh air, walking bare footed on the normal floor to act as earthing, and deep breathing should be taken to take away the negative effects.
- Check should be made that there is no magnetic field around the patient. If necessary, electricity should be cut out, and patient should sleep with head to the South or East
- Magnetic bracelets should be worn in the arms and legs, if available in size also in neck and waist.
- Blue curtains, blue lighting.
- Back straight and deep breathing, punch gently but deeply at the naval point 10 times 2/3 times a day. Plenty of direct sunshine, removing glasses if worn during the sunshine therapy. Don't look at artificial light and sun directly.
- Cooking in earthenware pots, aluminium wares should be avoided at all costs.
- Friction hip and sitz baths should be taken every day: swim if possible.
- Small dose of phosphate of iron, as iron is a great oxygen carrier to the cells of the blood.
- Even operations sometimes very necessary can be successful only after the patient has changed his mode of living and food intake, otherwise the disease can come back again.
- Biochemical salts can be used as supplements.
- Only GRAPE CURE has also been successfully used as nature cure treatment for cancer.
- Artificial light should be avoided at all costs. The sunlight should be direct (without passing through any glass) especially on the affected parts. Remove glasses if worn.

When taking sunshine water to be given to the sun so that the sunlight should fall on the eyes through the water curtain.
