**DIABETES.**

Place five magnets - We use the standard round magnet size with Thickness 9 mm, outside diameter 45 mm x inside diameter 22 mm, but any magnet will do.

- (i) ONE with the SOUTH pole touching general area of pancreas, which is located on the left side of the stomach.  
Place the Right hand first finger over this magnet. Top of the magnet will show North. (The South Pole is touching the pancreas)
- (ii) One Magnet with North Pole may be kept on the back in exact alignment with the magnet placed as at (i) above.
- (iii) Hold South Pole (S+) of one magnet in the left hand.
- (iv) ONE magnet with the SOUTH pole on the right FOOT palm
- (v) ONE with the NORTH pole on the left FOOT palm

Tie the magnets with cotton bandage or handkerchiefs. Do this for 30 minutes every day, and in less than 20 days you should be cured.

Practice abdominal deep breathing during this period, at the same time thinking of the pancreas and mentally activating it. This abdominal breathing can be done indefinitely, each time you remember.

The pancreas will automatically start its function of producing insulin.

You will find yourself every day better and will need less and less insulin until in a few days you are free from your problems.
