Whilst speaking , at Orlando, USA on the use of magnets for therapeutic purposes, in 1989, I was told that to avoid clogging in the oil pipes the companies were using magnets to keep the oil pipes free.

In June 1.991, in the advertisement in the Daily Telegraph of London I read about a British made device, the Wizard used powerful ceramic ferrite magnets to break down the molecular structure of the magnesium and calcium carried in water which cause limescale deposits, keeping the pipes free of such deposits.

Since then, quite a few persons have been placing south pole of the \* magnet (**45mm outside dia – 22mm inside dia x 9mm thick**) at the outside of the heart with deep abdominal breathing to declogg the arteries, with spectacular results of cleaning their arteries avoiding by-pass surgical operations.**(Those who have pacemaker or stein or any metal for the heart or any other part of the body, in no circumstances should use the magnets near the heart or any other part where the metal exists).**

South Pole of the magnet (if you hold a magnet in a fine thread, the pole which faces the North of the earth is the South Pole of the magnet) for:

- Day 1. 1 minute every two hours and deep breathing, five times a day plus 5 minutes of light exercise during the whole day, on the 1<sup>st</sup> day.
- Day 2. 2 minutes every two hours and deep breathing, five times a day plus 10 minutes of light exercise, during the whole day, on the 2<sup>nd</sup> day
- Day 3. 3 minutes every two hours and deep breathing, five times a day plus 15 minutes of light exercise during the whole day, on 3rd day.
- Day 4. 4 minutes every two hours and deep breathing, five times a day plus 15 minutes of light exercise during the whole day, on 4th day.
- Day 5. 5 minutes every two hours and deep breathing, five times a day plus 15 minutes of light exercise during the whole day, on 5th day.

Deep breathe in and out through the nose simultaneously putting your abdomen at the naval point in and out 12 times with a space of 30 seconds between each push, during the application of the magnet, deep but slow, you can deep breathe more often even when the magnet is not being used, as deep breathing helps the whole body, (The Healers can push the abdomen at the naval point with the punch gently but deep in and out). Punching the Navel Point cannot be done to for pregnant cases, who must do their own breathing in and out.

Change your diet from the very first day to raw and ripe freshly cut vegetables and fruits with sprouted grains (avoid mixtures - one raw vegetable at each meal) to be chewed very well and take 2 litres of magnetised water every day by sipping (no gulping), putting a bottle of water over the North Pole of the magnet for ½ hour or longer the water will be magnetised, have helped them clean their arteries and bypass. Continue with deep breathing and exercise indefinitely. Avoid constipation and keep your stomach and system clean at all costs.
